Jurors Not Caught

MAINTAINING ITS recently-established record for speed, Bulloch county's grand jury for January term of superior court closed its deliberations with the first day of its session. Exactly what this record signifies, may be an open question, but certainly one thing is plain—there is no loafing on the job when grand juries get in session these modern days. Boiled down to a matter of definite significance, we suggest it means that members of that body have important personal matters which call them back home, which matters stir them to prompt action when they get together. Certainly it does not mean that any matters are neglected. Maybe it might signify that there is less business—and in that event, we could compliment ourselves that we are improving.

Time was in the long ago when grand juries remained in session—and semi-idle, to be sure—for practically an entire week. The members drew \$2 per day, and was not uncommon for far-sighted voters to drop a note in advance to the sheriff—whose business it was to "catch" jurors when there were vacancies—with request, "I am going to have business in the 'boro during court week and will need to remain there during the week. If you can 'catch' me at the court, I'll certainly appreciate it." We have seen these notes, and know those prospective jurors by name and face.

Now there has been a change. Jurors are not "caught" in that manner, but are drawn openly from the lists. Too, there is little attraction in even the present per-day compensation. Most men are worth more than that at home.

Lost One Battle

THAT WAS INDEED a right uphill fight waged in behalf of Georgia last week in the legislature; it was disappointing that the battle should have been lost—but it does not necessarily mean a permanent defeat.

Those who recognize the superior capacity of Ellis Arnall to serve the state were vastly in the majority; but the rules by which the battle was fought were so completely one-sided that the odds could not be overcome. It was not a battle of a man against a man, but a field against a man. Those three prospective candidates for governor needed merely to combine their forces in order to hold the front against those of the present governor, and the minority forces won the battle. They won because under the rules, one vote in opposition had the force of two in favor of a change of the existing law.

Having gone down in the skirmish line, Governor Arnall uttered a truism when he said "we have lost a battle, but not the war."

Eugene Talmadge, Ed Rivers and Roy Harris, all ambitious for themselves, united their friends in the supreme effort to prevent the possibility of Ellis Arnall being a candidate. Their combined strength was slightly more than one-third of the number who stood for the right of the people of Georgia to say whether or not they again wanted Arnall.

Now, the question to be answered is as to how these forces may be organized for the benefit of either man in a formal contest for the governorship. An overwhelming majority having declared against all of the three men named, it seemed quite reasonable that there may be a getting-together on some good man in opposition to either or all of them. This is the end toward which we are looking. Let's find out who is that one good man—and follow him.

TOM RUCKER

A Letter to the President of the United States

January 18, 1946

Hon. Harry S. Truman
President of the United States
The White House
Washington, D. C.

Dear Mr. President:

Your proposal to me in Washington last evening that the wage demand of the United Steelworkers of America-CIO be settled on the basis of a wage increase of 18½ cents an hour, retroactive to January 1, 1946, cannot, I regret to say, be accepted by the United States Steel Corporation for the reasons set forth below.

As you must be aware, your proposal is almost equivalent to granting in full the Union's revised demand of a wage increase of 19½ cents an hour, which was advanced by Philip Murray, the President of the Union, at our collective bargaining conference with the Union in New York a week ago today. In our opinion, there is no just basis for any point of view for a wage increase to our steel workers of the large size you have proposed, which, if put into effect, is certain to result in great financial harm not only to this Corporation but also to users of steel in general.

As I have tried to make clear to you and other Government officials during our conferences in Washington over the past few days, there is a limit to the extent to which the Union wage demands can be met by us. We reached that limit when we raised our offer to the Union last Friday from a wage increase of 12½ cents an hour to one of 15 cents an hour. This would constitute the highest single wage increase ever made by our steel-making subsidiaries. Our offer of 15 cents was equivalent to meeting 60% of the Union's original excessive demand of a \$2 a day general wage increase. Our offer met 75% of the Union's final proposal of a wage increase of 19½ cents an hour. A wage increase of 15 cents an hour, such as we offered, would increase the direct labor costs of our manufacturing subsidiaries by approximately \$60,000,000 a year. That is a most substantial sum, and does not take into account the higher costs we shall have to pay for purchased goods and services, when large wage increases generally become effective throughout American industry, as is inevitable after a substantial increase in steel wages.

As you know, collective bargaining negotiations with the Union broke down at the White House yesterday afternoon, because Mr. Murray then refused to budge from his position that a country-wide steel strike must take place, unless steel workers are granted a general wage increase of 19½ cents an hour. Our offer of a wage increase of 15 cents an hour was again rejected by the Union.

The Union threatened to go ahead with its program for a national steel strike at midnight next Sunday, although such a strike will be a clear violation of the no-strike provision contained in our labor contracts with the Union, which continue by their terms until October 15, 1946.

From the outset, we have recognized how injurious a steel strike will be to reconstruction and to the economy of this whole country. Most industries are dependent upon a supply of steel for their continued operations. We have done everything reasonably within our power to avert such a strike. If a strike occurs, the responsibility rests with the Union.

When the Government at the eleventh hour informed us about a week ago of its willingness to sanction an increase in steel ceiling prices, we at once resumed collective bargaining negotiations with the Union. Such price action by the Government was a recognition by it of the right of the steel industry to receive price relief because of past heavy increases in costs, something which the steel industry for many months has unsuccessfully sought to establish with OPA.

I should like again to point out some pertinent facts relative to the wages of our steel workers.

Since January, 1941, the average straight-time hourly pay, without overtime, of our steel workers has increased more than the 33% increase in the cost of living during that period, recently computed by Government authorities. Steel workers' wages have kept pace with increased living costs. Such average straight-time pay in our steel-producing subsidiaries was \$1.14 an hour in each of the months of September, October and November 1945, excluding any overtime premium and any amount for correction of possible wage inequities. An increase of 15 cents, in accordance with our offer, would

raise such average straight-time pay to \$1.29 an hour, placing such pay among the highest today in all of American industry.

Under our offer of a 15 cent increase, the average weekly take-home pay of our steel workers for a forty-hour week would amount to \$51.60, assuming that no overtime is involved. This figure is only \$4.54 less than the actual average weekly earnings of these employees, including overtime, in the last full year of 1944, when the average work week was 46.1 hours. The difference is really less, because we will undoubtedly continue to have overtime in the future, just as we have at the present time. In November, 1945, overtime premiums to our steel workers aggregated more than \$1,300,000. Such reduction of \$4.54 in weekly take-home pay is the natural consequence of a shorter work week of forty hours, and therefore one of lower production.

Much as we desire to avoid a steel strike, we cannot overlook the effect both on this Corporation and on our customers and American business in general, of the 18½ cent an hour wage increase, which you have proposed. Such a wage increase must result in higher prices for steel than have previously been proposed to us by the Government. Great financial harm would soon follow for all users of steel who would be obliged to pay higher prices for their steel, higher wages to their employees, and still have the prices for their own products subject to OPA control. Such a high and unjustified wage scale might well spell financial disaster for many of the smaller steel companies and for a large number of steel fabricators and processors. The nation needs the output of these companies. Increased wages and increased prices which force companies out of business can only result in irreparable damage to the American people.

In our judgment, it is distinctly in the public interest to take into account the injurious effect upon American industry of an unjustified wage increase in the steel industry. After a full and careful consideration of your proposal, we have reached the conclusion above stated.

Respectfully yours,

Benjamin F. Fairless,
President, United States Steel Corporation

NEVILS F. H. A.

The Nevils F. H. A. held their annual meeting Friday, January 25th. As a candidate for another two-year term for chairman of the board of commissioners of roads and revenues of Bulloch County, I wish to thank you for your support during the past. I appreciate to the fullest the opportunity of serving you. At all times I have co-operated with the schools and all other departments of the county government and city administration. It has been my desire to give you the best service possible working with the other two commissioners.

Five years ago our board began plans for a number of county improvements, such as road paving, bridge and road construction, enlargement of the Bulloch County Hospital, remodeling the court house and jail, the building of a new prison camp, etc.

Then, as you know, came Pearl Harbor, and in order that we might put every effort into the winning of the war we gave up the best road equipment we had to further the war effort at the government's request, and our work was limited to only a small part of peacetime activities. Since the war closed, the county has been able to purchase new equipment for road work and is completing a new prison camp for housing its prisoners. Plans are practically complete for more than doubling the capacity of the county hospital. Our health department is getting back on before-the-war basis and, joining the Federal Government and other local units of government, we have just begun a county-wide program of Brille fever and malaria control, spraying all homes in the county this year with DDT. The State Highway Department has just informed us of the re-opening of all Burton's Ferry road contracts from Statesboro to Savannah, and an early letting of ten miles of paving from the Teachers College to Denmark on State Route 67 to Pembroke. Surveys and plans for post roads in the county are nearing completion and we expect soon to see contracts let for completion of grading and paving of several of these roads.

Since our work has been practically stopped during the war, I will appreciate the opportunity of serving you again for the next two years as chairman of the board of commissioners.

Very respectfully,
NEVILS F. HODGES.

FOR BOARD CHAIRMAN
To the Voters of Bulloch County:
I hereby announce as a candidate for the office of chairman of the board of county commissioners in the primary to be held on March 6th, subject to the rules of said primary. Knowing that it is impossible to see each voter before the primary (because Bulloch county is so large), I want to use this method of soliciting your vote and influence and if elected I promise to carry on the duties of this office to the best of my ability.

Sincerely yours,
JOHN H. OLLIFF.

FOR BOARD MEMBER
I hereby announce as a candidate for the office of member of Bulloch county board of commissioners subject to the rules of the Democratic primary to be held on March 6th.

In the event that I do not see you before the election I take this method of soliciting your vote and influence. Sincerely,
CLARENCE HENDRIX.

FOR BOARD MEMBER
To the Voters of Bulloch County:
Notice is hereby given that I am a candidate for the office of member of the board of county commissioners of Bulloch county. If elected I promise to fill the office to the best of my ability and in fairness to all. Your vote and influence will be appreciated.

J. T. MARTIN,
Nevils, Ga.

FOR MEMBER OF BOARD

To the Voters of Bulloch County:
I am offering myself as a candidate for membership on the board of county commissioners subject to the rules of the forthcoming primary. If favored with your support, I pledge my very best efforts to render such service as will best serve the public interests of the county. If I am elected, I will endeavor to administer the affairs of the office in a fair and impartial manner.

I appreciate your support in the past and solicit your vote and support in the approaching primary. Respectfully,
LINTON G. LANIER.

CARD FROM MR. HODGES

To the Voters of Bulloch County:
As a candidate for another two-year term for chairman of the board of commissioners of roads and revenues of Bulloch County, I wish to thank you for your support during the past. I appreciate to the fullest the opportunity of serving you. At all times I have co-operated with the schools and all other departments of the county government and city administration. It has been my desire to give you the best service possible working with the other two commissioners.

Five years ago our board began plans for a number of county improvements, such as road paving, bridge and road construction, enlargement of the Bulloch County Hospital, remodeling the court house and jail, the building of a new prison camp, etc.

Then, as you know, came Pearl Harbor, and in order that we might put every effort into the winning of the war we gave up the best road equipment we had to further the war effort at the government's request, and our work was limited to only a small part of peacetime activities. Since the war closed, the county has been able to purchase new equipment for road work and is completing a new prison camp for housing its prisoners. Plans are practically complete for more than doubling the capacity of the county hospital. Our health department is getting back on before-the-war basis and, joining the Federal Government and other local units of government, we have just begun a county-wide program of Brille fever and malaria control, spraying all homes in the county this year with DDT. The State Highway Department has just informed us of the re-opening of all Burton's Ferry road contracts from Statesboro to Savannah, and an early letting of ten miles of paving from the Teachers College to Denmark on State Route 67 to Pembroke. Surveys and plans for post roads in the county are nearing completion and we expect soon to see contracts let for completion of grading and paving of several of these roads.

Since our work has been practically stopped during the war, I will appreciate the opportunity of serving you again for the next two years as chairman of the board of commissioners.

Very respectfully,
NEVILS F. HODGES.

FOR BOARD CHAIRMAN
To the Voters of Bulloch County:

Sincerely yours,
JOHN H. OLLIFF.

FOR BOARD MEMBER
I hereby announce as a candidate for the office of member of Bulloch county board of commissioners subject to the rules of the Democratic primary to be held on March 6th.

CLARENCE HENDRIX.

J. T. MARTIN,
